## Chapter 1 by Miguel Carrillo

My name is Loray and I am writing my entry to my dream book. It was 11:00 PM and I should be getting ready for work for tomorrow. As soon as I was done filling out the journal or diary, whatever you call it I headed off to bed which seemed like a beautiful place... if only I knew what would happen during night. I turned off my light and got tucked in. I closed my eyes which would not open on what would soon seem like an eternity and started sleeping.

## Chapter 2 by SaintSayaka

When I woke up, I was in an amusement park. I breathed happily at the sight of the single blue kite fastened to my arm. It was a trick that I had taught myself, to become aware of my dreams and take control. Lucid dreaming, my father had called it. It was a strange trade for him to pass onto his daughter, but as a sleep specialist, he had considered it his sacred duty.

I carefully untied the kite and let it fly gently into the sky, with no use for it now that I had become aware. And besides - it would be rather obtrusive on that roller coaster I was eyeing.

As I strapped myself into the first seat (there are no lines in my dreams!) I was greeted by my

I was launching significantly faster than the previous version of the app. I'm still not sure if I'm happy with the results, though.

"Not a problem," I thought. "Just need to imagine a parachute or something."

### Chapter 3 by Charlie Hughes

I looked around in the air for something to grab onto but there was nothing there! I shot up into the sky, and landed on top of a cloud. Phew! I was safe again. Well at least for a few minutes...

### Chapter 4 by Shterapt

I breathed deeply and glanced down at the landscape, the cloud was moving. Moving towards a lake, this was my chance. I could jump off the cloud and land in the lake but I don't know how deep it is. "Oh well" I said out loud. I walked to the edge of the cloud and pin dropped my way through the skies. I nearly reached the water when a man appeared and grabbed me

"Don't want to do that do ya?" He smirked and looked at me, "yea I can lucid dream too, funny thing that, I've managed to grab hold of your dream-sphere and enter it." He held out his hands and a pen and note book appeared. He started writing it when sky boomed with thunder.

He looked to the sky and said, "oh woops looks as if I've upset the dream world you've made." He looked at me and smiled, "I best be going, nearly time for work."

"No wait, how are you doing this? And I know you're real cause I can't erase you."

"Well if you're in a close enough radius to another lucid dreamer then you can dream share." He gestured towards a split in my dream world were it changed all of a sudden to a city. "Yea that's my world joining yours on the borderline. Anyway see you tomorrow, same time?

"Wai.." And he suddenly disappeared before my eyes.

I woke up later at around 7:45 and got ready for work. With the weird dream still stuck in my

head I decided to just go with it.
